Dear ,

I read and am interested about your advertisement in the May 05 XYZ website for an Entry-level Software Engineer. Please accept this letter and the enclosed resume as my application for this position.

As a recent Computer Science graduate of Northeastern University, I have solid knowledge of a variety of operating systems, software development tools, and networking and file systems as well as practical experience in these areas. During my cooperative education placements, I had successful experience in developing and debugging C++ code; in fact, during my placement at ABC company, my supervisor told me I was the most efficient student programmer he had ever worked with. When my classes required me to collaborate with other students on team projects, I was nearly always asked by my peers to organize the work and present the results. In addition, I found that my problem-solving skills were enhanced by working as part of a team and by considering other people's ideas.

Company Name is a leader in creating data storage solutions, while at the same time being a small, focused enterprise. Both of these qualities appeal to me greatly. I am actively seeking the kind of challenge offered by working for a technically innovative firm that is small enough to be flexible in response to the market.

I am eager to have the chance to discuss this position with you in an interview. Please contact me days at 123-456-7890 or evenings at 025-345-6789. Thank you for your attention, and I look forward to hearing from you.

Sincerely

Your Name

Subhalaxmi Samal
